

Looking for a vendor that offers CMS Price Transparency Services? Look to the leader. Look to Panacea.

The Panacea CMS Price Transparency Suite Meets and Exceeds all CMS Requirements

One of the most difficult and time-consuming tasks you'll be confronting is the implementation of the CMS Price Transparency Rule. In fact, the rule is effective January 1, and there's little time remaining to do it right the first time. But you can with the Panacea CMS Price Transparency suite of modules and consulting service.

 **PANACEA**[®]
A BESLER Company

*HFMA staff and volunteers determined that CDMAuditor® – Hospital Zero-Base Pricing® and related modules have met certain criteria developed under the HFMA Peer Review Process. HFMA does not endorse or guarantee the use of this service.

Lean on Us

With Panacea, you can rest assured that your provider will be compliant and that prices within your system will be compliant and competitive.

Here are the four modules — available individually or as the complete suite — to be compliant with the CMS Price Transparency Final Rule, effective January 1, 2021.

Disaggregation Algorithm & Report Set:

This module processes hundreds of thousands of claims and payment data to compile the required list of 300 shoppable services and create charge, payment and allowable reimbursement profiles for ALL items and services.

Machine Readable File Validation Reports and Production:

This module produces a machine-readable file containing gross charges and negotiated managed care rates for all items and services that hospitals can post on their websites.

Hospital Zero-Base Pricing[®]

Through its HFMA Peer Review- designated Hospital Zero-Base Pricing software, data is processed to create defensible chargemaster prices with special analytics utilizing the developed “shoppable list.”

Consumer Display:

There are three display levels: one displays gross negotiated charges; another allows consumers to enter their co-pay and deductible to and calculate their out-of-pocket estimates; and a third integrates with an eligibility system to import their co-pay and deductible information. All are web and mobile friendly.

Key Benefits

- Save time and money when you engage us to create your unique shoppable list of 300 items, including MS-DRGs, same-day surgery and other packaged services. Each hospital within a health system requires their own unique list.
- Bypass the onerous task to create a Machine-Readable File. We'll do the heavy lifting and will generate a file that includes line item descriptions, code, gross charges, negotiated rates/charges and de-identified lowest and highest for all items and services.
- Feel confident that your Consumer-Friendly Display is both accessible on the Internet and mobile devices. We create yours with three different display levels.
- Have the satisfaction of knowing that your prices will be compliant and competitive when your data is processed through the Panacea's HFMA Peer-Reviewed Hospital Zero-Base Pricing Software.

Partner with the undisputed leader in pricing – hospital, physician, pharmacy and now CMS transparency pricing.
One solution meets and exceeds ALL final rule requirements.

One source. One leader. The power of one.
