

Looking for a vendor that offers E&M training for your physicians? **LOOK TO THE LEADER. LOOK TO PANACEA.**

The Panacea E&M Physician Training Program

The largest overhaul of the evaluation and management guidelines in two decades becomes effective Jan. 1, 2021. And getting your physicians onboard and on the same page is a major challenge—a challenge that must be accomplished in order to remain compliant and quantify new reimbursement.

Look to Us

Panacea now offers E&M training for your physicians, coders and other qualified healthcare professionals who provide E&M services in the clinic or other outpatient settings via a concise 50-minute training session. Led by nationally recognized coding educator Kathy Pride, RHIT, CPC, CCS-P, CPMA, executive vice president of coding and documentation services for Panacea, this E&M training is timely and relevant.

Learning Objectives

The E&M training will...

- Review the revised 2021 E&M guidelines for selecting the correct level of service for clinic patient visits;
- Discuss what is changing, and what is not; and
- Demonstrate how to document levels of service based on the revised guidelines for Medical Decision Making or Time.

Training Delivery Options

We offer flexible, convenient and customized delivery options of this important E&M training by...

- Delivering an on-demand video in an MP4 format to host on the physician group or health system learning management system (LMS);
- Providing access via login on Panacea's LMS;
- Offering optional live Q&A sessions to augment the on-demand training;
- Delivering interactive virtual group training with an instructor, and
- Offering private and personalized tutorial training.
