

Chargemaster Audit Services

Our chargemaster audit services are unique. We provide more options and more services to meet your needs. Our team utilizes state-of-the-art web-based technology to analyze and benchmark your data against current coding guidelines.

We'll provide a summary scorecard that leads to actionable recommendations on deficiencies. And, unlike other firms, our team will recommend coding, compliance and pricing improvements, assist you in making them and even provide you with web-based access to our system for a sufficient time afterwards at no additional cost.

We do this because we care and want our team to monitor and ensure the successful implementation of the recommended changes.

Key:
 + process is sufficient/pass
 - insufficient/process needs improvement

SCORECARD			
SERVICE LINE REVIEWED	CDM CODING ACCURACY	CDM CHARGE APPLICATION	CHARGE CAPTURE EFFECTIVENESS
